

Wednesday December 13th 2006

Well the day was good. Some rain very early but then good weather. My day was very busy. So busy in fact that the guys were working overtime. I got permission to leave at 5.45 for our 6.15 training. Not a lot of time to get across town and ready to go.

Susanna rushed into our house just after 6. Chucked the gear into her van and we drove like a crazy courier driver to get to the field on time. I reckon we did too.

So there we were ready to go and we were the only ones there. How sad is that huh? I can clearly remember the keenness of players to have these Wednesday night trainings. Well maybe I only thought they were interested. Anyway Susanna and I started with some throwing. Got plenty of that done and made some corrections on the way.

Out came the bat and we batted until our hearts were content. Then packed up the gear and raced across town to a Finnish Society committee meeting.

So not very happy about the turn out at training but at least I got to spend some time with the committee just to see how things work. Hmmmmmmm these guys have plenty of work I can tell you
This Sunday is the last game of pesis for 2006. Please come play it is just so much fun
