

## GamedayFeb19th2006

Great day for pesapallo. A pity that more did not attend the game. However those that did had a great time. Again we played the modified Kiwi version. Two teams with 5 aside. Each team had 3 guys and 2 girls. Yup any one who played today was either a guy or a girl didn't matter about age. Secret thing though don't be hitting the ball Sirpa Ottaway. She did some damn good stuff today. Noonewontodayasfarasthescoregoes. Wedidn't keep score. Never do on this type of game, Seetoday'sgameisthereforeveryonetocomeandenjoy. Wellwedidanyways. Now Erik's partner Merike, she joined in again. No win previous game this girls surprised me with how she went about hitting. Today was no different. She is fun girl and she knows what hitting in pesapallo is about. I am was there and today he batted very well. Not just smash and hope but good placement. Then there is Kalle always steady rock in batting and today he showed some good technique with the bat. Daniel was another solid performer today. Every game she has played her skill has lifted. Her and Kalle will sadly be leaving New Zealand soon to return to Germany. I am absolutely shattered that they will happen but also so privileged to have them known both of them. But that is still a wee way away.

Susanna well today she did some good hitting but with a sore back fielding was an effort. But she played the entire game and for that the game was better. During a game and he isn't shy about it. Now Petri this guy is a great bloke. He has lot of good man. Batted well and watched either. Wish I knew what he was saying though. He is a good man. Batted well and watched the ball go over the place. One time he is in the field when he calls out "vaara" and there the batter letting the ball fall right onto the circle. Hmmm new tactics huh. Then there is me Gavin. You know today I had fun. I just met the best bunch of players a bloke I could wish to meet. I think about the game and the players today and I am humbled by their efforts and dedication to this game called pesapallo. Thank you all you have given me the inclination to keep working to keep this game going.

After the game we all joined in on a discussion on how to attract more players show to promote the game and how to get more equipment. In Germany. I think we have done well here Kalle and Daniel told me about how things are back here club he is within Germany. They have a link on our web pages so we should visit with them soft as we can. Aple although any one who can help us no matter how small all the contribution in either funds or assistance please get in touch with either myself or Susanna. We need your help to build this games please help push help others have the opportunity to come and play pesapallo. Pesapallo isn't just a game it is a promotion too for Finland. Think about it that way it might give you then nudget to come help us.

Thanksto everyone at the game today
