

Gameday June 25th 2006

Two days in a row with brilliant sunshine and not a rain cloud to be seen. Hard to believe we are still in Auckland and it is winter.

I guess there are plenty of things to do on such a great day. Fishing, watching the All Blacks beat Argentina or even drilling holes in the wall or whatever. But for a hard group of three it was pesapal today. Was to be the social game. You know when everyone jumps out of bed yelling we have to go play pesapal today. Well that didn't happen but we three did some training anyway.

Susanna just back from Finland. And I have to say Susanna about the pesapal games she went to watch while in Finland. She was there too.

We just did batting stuff and yes some fielding as well coming out of hospital. And folks I can still do it. Fel wifethough she thinks I stand and watch eh?

Susanna and Jouni did most of the hitting and I reckon this bloke Jouni can hit the ball alright. I reckon if we just gotta come to play more often. Susanna is as steady as a very good hit away too. Mel don't smash the ball too far enough for me.

We did talk over briefly about getting promotional stuff potential for pesapal. It is huge if only we can break through about the game.

Susanna is copying some DVD songs games played recently up in chat to Susanna I am sure a copy could be pushed your way. The material out into the public eye the more chances we have attracting players.

It was a good day at the field though. Good weather,

as some pretty good stuff to say in Finland. Jouni came today and well was

This was my first fielding session since I got out of hospital. Don't tell my

that they enjoyed every moment of it too. I reckon if we just gotta come to play more often. Susanna is as steady as a very good hit away too. Mel don't smash the ball too far enough for me.

uff done and Jouni mentioned that the rough barrier of noon is really knowing

Finland and if anyone would like to help more we push this type of effort of promoting the game and Finland and

Good fun, Good people
