

Game report March 18th 2007

Very windy day with rain threatening but not coming to anything. Susanna and I arrived early to get some work done. Plenty of throwing and hitting practice.

Glen arrived and was closely followed by Ian.

Susanna had to leave due to a dance commitment over at the pump house at Takapuna.

So this became a training session there being no other arrivals.

Ian travelled to the game from Grey Lynn so it was a long to come to be told there is to be no game today. So we trained instead.

All batting and fielding today. Ian and Glen took most of the batting session with myself either serving or fielding. I did take one rotation of batting and did all right. Quit while a head is my motto and that is what I did. Ian was consistent in his hitting. Good powerful drives of the ball into the field. Kept me busy chasing the ball too.

Glen he did all right. Started not so good then got into his work rate pretty well.

I chatted with Glen as he readied himself for batting. He is a sheet metal worker mainly dealing with stainless steel. He is a cabinet maker as well and prides himself in producing high quality work. So should you be looking for a cabinet maker or indeed some stainless work get a hold of Glen.

We stayed on the field for about an hour getting plenty of hitting done. Ian spent the most time out in the field and worked up a pretty good sweat. Then the drizzle arrived and we decided enough already time to go. The drizzle didnt come to much and was nearly over as we drove away from the park.

Next game is March 25th. The final game of the season and we need the noisiest crowd ever to come to the game.

See you at the final
